ADVISORY

The India Meteorological Department (IMD) has issued a warning regarding the formation of a low-pressure area over the East-Central Arabian Sea and off Karnataka Coast around 21st May 2025. This system is expected to gradually intensify, possibly developing into a deep depression by 23rd May 2025. In this regard, all the fishermen societies/ association are advised to note the following:

Rainfall:

- Isolated heavy to very heavy rainfall is likely over Maharashtra and Karnataka coasts during 22nd to 24th May 2025.

Sea Conditions & Winds:

- Squally weather with rough to very rough sea conditions is very likely to prevail along and off the North Maharashtra and South Gujarat coasts over the northeast and adjoining southeast Arabian Sea till next 7 days i.e. 26th May 2025.

Fishermen Advisory:

- Do not venture into the sea from 20th May 2025 to 26th May 2025.
- Fishermen who are currently at sea should return to the coast immediately or seek shelter in nearby safe harbors.

Yashaswini B.
