

India's First-of-its-kind **International Fishery Tech Expo**

• Fisheries • Aquaculture • Processing • Packaging
• Cold Storage • Shipping • Software Solutions

June 12 13 2025

Bombay Exhibition Center
Mumbai, India

www.iftexpo.com

Welcome to IFT Expo 2025

- Fisheries • Aquaculture • Processing • Packaging
- Cold Storage • Shipping • Software Solutions

At IFT Expo, we are proud to present India's first-of-its-kind all-encompassing International Trade Show IFT Expo that connects Importers, exporters, producers, processors, processing machinery manufacturers, technical experts, and other industry stakeholders.

With emphasis on tech advancements, sustainable growth, and global market access, IFT Expo offers a holistic platform for stakeholders to collaborate, learn, and harness the vast potential of India's rapidly growing fisheries sector.

Why Choose IFT Expo?

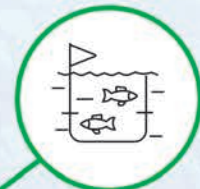

- Direct interactions between international importers & exporters
- Source technological innovations for fish & seafood processing
- Explore advanced aquaculture technologies for product diversification
- Discover innovative aquaponic systems
- Meet suppliers offering top-tier fishing vessels and equipment
- Optimize supply chain efficiency and product quality
- Learn about sustainably harvested seafood and eco-friendly sourcing
- Engage with tech-driven approaches to marine conservation
- Enhance retail offerings through new seafood products and packaging solutions
- Learn about innovative port infrastructure, vessel tracking, and safety
- Gain exposure to policies shaping fisheries and international collaborations

India Fisheries sector on a 'Blue Revolution'

The Government of India is at the forefront of transforming the fisheries sector and bringing about economic progress through Blue Revolution in the country.

World's **3rd largest** fish producer, contributing **8%** to global fish production

Ranks **2nd** in aquaculture production

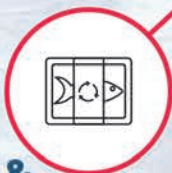

Projected industry growth - **6.7 trillion** by 2032

Seize the opportunities of this Blue Revolution.

The Indian Government has announced **record investment of 30,572 crores** in the fisheries (2015-2025)

Among the **Top 5 fish & seafood exporting** countries globally

The Indian Government is Promoting **Fish for Health** and **Fish for Wealth** to mitigate hunger and nutrient deficiency

Exhibitor Profile

Through the IFT Expo, fishing firms and Aquaculture ventures can boost exports, tap into global markets, and drive development within the seafood industry, aligning with India's export ambitions and sustainability agenda.

Fisheries

- Commercial Fishing Companies
- Deep Sea Fishing Vessels
- Fishing Boat Manufacturers
- Fishing Gear and Equipment Manufacturers
- Sustainable Fishing Practices Advocates
- Fisheries Process Equipment Manufacturers

Aquaculture

- Aquaculture Technology and Equipment Providers
- Feed and Nutrition Suppliers for Aquaculture
- Fishing Companies (Wild-Catch and Aquaculture)
- Seafood Farms and Hatcheries
- Shellfish and Crustacean Harvesters

Seafood Processing and Packaging

- Automation and Robotics in Seafood Processing
- Fish Processing, Filleting and Cutting Companies
- Innovations in Seafood Processing Techniques
- Packaging Machinery and Equipment Providers
- Packaging Material Suppliers
- Seafood Processing Plants
- Shellfish and Shrimp Processing Facilities

Cold Storage and Shipping

- Cold Storage Facilities
- Cold Chain Logistics Companies
- Cold Chain Management Companies
- Quality Control and Inspection Services
- Reefer Container and Vessel Services
- Refrigeration and Freezing Technology Providers
- Seafood Transportation and Logistics Providers

Technology and Innovation

- Automated Processing and Packaging Solutions
- Innovations in Sustainable Fisheries and Aquaculture Practices
- IoT and Data Analytics for Fisheries and Aquaculture Management
- Technology Providers for Cold Storage Monitoring

Government Support & Academic Expertise

- Environmental Protection Agencies
- Fisheries Regulatory Authorities
- Quality and Standards Regulatory Bodies
- Training Institutes for Cold Storage and Processing Technologies
- Universities and Research Centres Focused on Fisheries and Aquaculture

Visitor Profile

IFT Expo facilitates direct interactions between exporters and international importers, opening doors to global market opportunities.

- Fisheries Processing Companies
- Importer / Exporter
- Government Representatives
- Agrovets
- Industry Associations and Trade Groups
- Aquaponics
- Community Caterer
- Environmentalists and Conservationists
- Boat Dealers and Distributors
- Commercial Fishermen
- Fishermen, Aquaculturists and Fishing Communities
- Gastronomy
- Port Authorities and Harbor Masters
- Researchers and Scientists
- Retailer
- Seafood Food Safety and QA Professionals
- Specialist Fish Retailer
- Wholesaler

Hospitality, Retail & E-commerce

- Hotels & Restaurants
- Supermarkets
- Direct-to-Consumer Food Brands
- Online Seafood Retailers
- Online Seafood Delivery Services
- Food Safety and Quality Consultants

Knowledge Symposium

At IFT Expo 2025, we aspire to gather industry experts, researchers, policymakers, and technology providers to delve into the latest advancements and best practices in fishery and aquaculture sustainability.

Stay tuned for our detailed Knowledge Symposium, where we will foster idea exchange, share best practices, facilitate collaboration, and promote networking.

Organiser

Since 2000, VIS Group has been an experienced and revolutionary hands-on trade show organizer and publication house. For the last 24 years, the group has brought about a positive change through several pioneering projects as well as the magazines that impact the life of the common man via unconventional methods and focus on the B2B industry. The Group, with its presence in Mumbai has a stronghold in publishing, exhibitions, destination representation, new media and social media marketing and public relations.

VIS is known in the industry for the extensive buyer network it can reach and build relevant platforms that help them connect with the leading service providers and technology developers. VIS Group has capabilities for running successful campaigns for full-funnel lead generation solutions to some of the most successful sales and marketing organizations. We build and customize solutions for marketers, sellers, CEOs, and everyone else working to drive revenue.
